

MAINTAIN™
Medicines Assistance for
Those who Are In Need

A Patient Assistance Program for Unemployed Americans

What is the Pfizer MAINTAIN Program?

MAINTAIN is a patient assistance program that can help eligible people in financial need continue to get their Pfizer medicines if they are unemployed and do not have prescription coverage. There are more than 70 Pfizer primary care medicines available through the program. Once accepted into MAINTAIN, patients will remain enrolled for up to one year or until they become insured, whichever comes first.

Who is eligible for MAINTAIN?

Individuals and their immediate family members are eligible for the Pfizer MAINTAIN program if they

- Became unemployed on or after January 1, 2009
- Were prescribed and taking Pfizer medicines for at least 3 months prior to becoming unemployed and enrolling in the program
- Lack prescription drug coverage
- Can attest to financial hardship

Pfizer reserves the right to change or cancel the MAINTAIN program at any time. MAINTAIN is not available to residents of Puerto Rico and US territories. MAINTAIN is part of Pfizer Helpful Answers®, a joint program of Pfizer Inc and the Pfizer Patient Assistance Foundation™.
